

SCHOLARLY CONVERSATIONS MASTERMIND FOR DENTISTS

DLA DENTAL
LEADERSHIP
ACADEMY

Scholarly Conversations will act as a catalyst for growth to uplift and elevate peers. Participants will be supportive colleagues and often play devil's advocates in order to provide a different perspective, poke holes in strategies, and genuinely help colleagues think both inside and outside the box. This thought-provoking, but honorable process is the essence of a Mastermind group, and therefore, it will be the cornerstone of the Scholarly Conversations group.

How it works

Structured Agenda

A structured agenda for each meeting to ensure that discussions remain focused and productive. Each member participates in the "Hot Seat", and seeks feedback about a problem or situation they want to explore.

01

Safe Space to Share with your colleagues

A safe and confidential environment where members feel comfortable sharing their challenges, successes, and goals without fear of judgment or betrayal.

02

Accountability

Hold each member accountable for their commitments and goals. Regularly review progress and provide ongoing feedback and support to help members stay on track.

03

Resource Sharing

Members are encouraged to share resources, tools, and best practices that can benefit the group as a whole. This could include books, articles, podcasts, workshops, or personal experiences.

04

Oct. 2 to Nov. 6 2024
6:00 - 7:15pm
